

2026 15th International Conference on Transportation and Traffic Engineering (ICTTE2026)

December 4-6, 2026 | Wuhan, China

2026 15th International Conference on Transportation and Traffic Engineering (ICTTE 2026) will be held in Wuhan, China during December 4-6, 2026, sponsored by Wuhan University of Technology (China), hosted by School of Navigation (WUT, China). ICTTE aims to establish an effective academic exchange platform for experts and scholars in the fields of traffic engineering, logistics and transportation. The staff kept abreast of the development of the industry and the latest research results. The conference not only exchanged and discussed topics such as transportation planning and system optimization, traffic control and information technology, logistics and social economic development, and transportation safety, but also covered big data, High-speed rail technology, future transportation, urban brain, intelligent transportation, communication integration, new energy vehicles, sharing economy and green travel, and other hotspots and frontier topics in transportation. Participants can not only hear wonderful reports from well-known experts at home and abroad, but also face-to-face exchanges with relevant industry scholars. We sincerely welcome researchers in related fields to contribute.

Keynote Speaker

Prof. Tien Fang Fwa
National University of Singapore, Singapore

Call for Papers

Air Traffic Field

- Intelligent Transportation System for Air Transport
- Air Traffic Organization and Management
- Autonomous Control of Aircraft
- Collaborative Decision-making/Control of Multiple Aircraft
- Risk Warning for Air Transportation System

Other Transport Engineerings

- Transportation Planning and System Optimization
- ITS Theory and Applications
- Traffic Control and Information Technology
- Transportation and Socioeconomic Development
- Transportation Safety

Water Transportation Field

- Ports, waterways, and Vessel Traffic Management
- Water Traffic Organization and Management
- Prediction of Ship Traffic Flow
- Intelligent Ship Navigation Guidance
- Intelligent Navigation Perception

Railway Traffic Field

- Smart Rail Transportation Planning Planning and Design
- Optimization of Rail Transit Network
- Intelligent Communication for Rail Transit
- Railway Intelligent Transportation System
- Comprehensive Dispatching of Railway Traffic
